

TALENTO

—INGENIOUS— **MOVER**

MULTI-TALENTED LIKE EVERY PRO.

Being clever is to have the ability to adapt. To face different situations and always have the perfect solution for them.

TALENTO has it all. Designed to **TRANSPORT GOODS** or **PEOPLE**, it offers professionals a wide range of solutions, from loading features to accessories - that makes a huge difference to your everyday work.

INGENIOUS OUTSIDE

DESIGNED TO
STAND OUT.

The **AGGRESSIVE DESIGN** of the new Talento shows how this unique van belongs to hard working professionals. From the style standpoint, Talento is compact and well-proportioned: the forward stretching windscreen pleasantly connects to the short bonnet and the overall effect is imposing, yet dynamic. The design is horizontal with bold, clear-cut lines in tune with the **NEW FAMILY FEELING** of the Fiat Professional range.

Enhanced vehicle width and load capacity is clearly suggested by the **SQUARE-SHAPED REAR** end, conveying an idea of dynamism and stability.

The Talento's design ingenuity was also applied to its size, thought to perfectly fit the space limits of every city, while offering great cargo capacity to carry every business forward.

INGENIOUS INSIDE

**MAKE YOUR
HEADQUARTERS
ANYWHERE.**

The interior of Talento is the perfect office for fully dedicated professionals like you. Carefully crafted to combine comfort and functionality, it is equipped with all of the necessary features that makes every hour at work pleasant and effective.

The ingenious solutions that brings a **CENTRAL SEAT WITH POP-UP TABLE AND HOLDERS**, is just one of many clever solutions that makes Talento your ideal future workstation.

INGENIOUS TECHNOLOGY

PUTTING TECHNOLOGY TO GOOD USE.

Technology plays a huge part in every business. The new Talento benefits from the latest technological advancements to improve your experience and efficiency at work.

The **KEYLESS ENTRY/KEYLESS GO SYSTEM** was carefully designed for the busy hands of a hard worker. Parking the Talento is made easy with integrated **REAR PARKING SENSORS** or **REAR CAMERA** displaying image in the interior mirror. Complemented by the **VIEWPLUS MIRROR**, that reduces the blind angle and improves the lateral view.

To help you find your next business destination, the new Talento comes complete with **7" TOUCHSCREEN RADIO NAVIGATION SYSTEM**.

INGENIOUS SAFETY

ARRIVE SAFELY.

Benefiting from unique safety features, every professional, passenger or cargo will always arrive safely. Talento comes with **ABS** with **EBD** and **HBA**.

ESC, with **TRACTION + SYSTEM** that transfers torque to the wheels, giving the best possible grip. The inclusion of **HILL HOLDER** technology aids you on steep roads, keeping your brakes activated for 3 seconds.

ABS WITH EBD AND HBA

Anti-lock Braking System

This is an integral part of the braking system, which prevents one or more wheels from locking and slipping regardless of the road surface conditions and braking intensity, ensuring control of the vehicle even during emergency braking.

Electronic Brake force Distribution

The electronic system, an integral part of the braking system, distributes brake force between front and rear axles to optimise efficiency in all driving situations.

Hydraulic Brake Assist

This system, integrated in the ABS, recognises emergency braking conditions according to the speed of operation of the brake pedal and guarantees additional hydraulic braking pressure to support that provided by the driver. This allows faster and more powerful operation of the braking system.

TRACTION +

Traction+ is the innovative traction control system that improves the vehicle's traction on the most challenging surfaces with poor grip. Under conditions of low grip from any drive wheel, the control unit detects slipping and applies the breaks, transmitting the drive torque on the wheel with the best grip on the ground. In this way, the vehicle's performance is more comfortable, ensuring the best stability and handling.

TSA

The Trailer Stability Assist system guarantees perfect stability even when towing. If the vehicle skids, the TSA automatically modulates the engine's power and the braking force on each wheel to give stability back to the vehicle and its trailer.

HILL HOLDER

Ideal for starting off uphill with ultimate ease, even with a full load. The Hill Holder automatically holds the vehicle for several seconds without you having to press the brake pedal.

ESC

The Electronic Stability Control offers you exceptional grip and stability by independently managing the braking force on the wheels when taking on a curve. It prevents the wheels from skidding, and guarantees perfect traction in all conditions.

INGENIOUS CARRIER
